

LEGAL NOTICE

The Forest Service, Wallowa-Whitman National Forest has approved an amendment to the Land and Resource Management Plan (Forest Plan, 1990) adding aminopyralid to the list of herbicides approved to treat invasive plants. Forest Supervisor Tom Montoya signed the decision on July 5, 2017, after completing analysis following agency procedures implementing the National Environmental Policy Act (36 CFR 220.6), and predecisional review (objection) following procedures implementing the agency's 2012 Planning Rule (36 CFR 219 Subpart B). Notice of opportunity to object was provided in legal notice published in this newspaper on May 12, 2017. No objections were received. This plan amendment is effective immediately per 36 CFR 219.17(a)(2). Legal No. 00050782 Published: July 10, 2017
